Non-Responsive Amendment

1. The reply filed on 12/8/03 is not fully responsive to the prior Office Action because claims have been amended to encompass originally non-elected claims. Specifically, elected claims are drawn to method of detecting viable cells, while non-elected claims are drawn to device and method of determining percentage of viability of cells. Accordingly, it has been determined in this Request for Continued Examination that claims 9-11, 13-16, and 27, as amended, are directed to a new invention that is independent or distinct from the invention originally claimed.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 9-11, 13-16, and 27, as amended, should be withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03. Applicant is advised to bring back the claims that were previously under prosecution.

2. Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply

Art Unit: 1641

outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.
